REIMAGINING FUNDRAISING & INVESTING

AI-Powered Education · Community · Access

Confidential · March 2026

THE PROBLEM

A \$14 TRILLION WEALTH GAP

FOUNDER SIDE

- 5.5M businesses start annually; **<3% receive venture funding**
- Women & POC receive **<2% of VC dollars** despite founding nearly half of all new businesses

INVESTOR SIDE

- 49M Americans eligible to invest in private companies; **<2% actually do**
- Locked out of the **fastest-growing asset class**—\$14.9T in private market AUM

Private companies grew 67% to 35M since 1997. Public companies declined 55% to ~4,000. The wealth is in private markets—and communities are shut out.

YOUR TOP 3 RECOMMENDED PA

Ranked by viability, timing, and fit for your situation

Recommended Path #1

UK SEIS/EIS Angel Round

TIMELINE	COMPLEXITY
1-3 months	Low-Medium
COST	TYPICAL RANGE
£3k-£8k legal + SEIS/EIS advance assurance	£50k-£150k (SEIS), £5M (EIS)

✓ Pros

- Powerful tax incentives attract UK angels (30-50% tax relief)
- Well-understood investment structure
- Large pool of SEIS/EIS-focused

✗ Cons

- Strict eligibility rules (e.g., count, asset test, qualification)
- Caps on raise amount
- HMRC approval process 4-6 weeks

FOUNDER

ILA CORCORAN

At 13, Ila began searching for homes online to support her family. Real estate and alternative assets became her path forward, leading to **\$100M+ in transactions by age 24.**

Sengo was created to change that—born from lived experience and the belief that wealth, opportunity, and ownership should be shared.

In Japanese, Sengo (戦後) means “postwar”—the era of renewal and rebuilding.
